

HAZING: Destroying Young Lives!

My dear friend, Hank Nuwer, has published his latest and final book. It is an excellent compilation of essays from individuals. It deserves a place in every college library, fraternity headquarters and chapter house libraries. Unfortunately it is not doing well.

I have made it my personal mission to get this incredibly important book into the hands of colleges, professors, libraries, guidance counselors, and more. My hope is to have this book go viral and made available to anyone who needs to read it.

If you want a copy, go to Amazon or Barnes and Noble.

The sole mission of Common Sense Foundation, a 501(c)(3) public charity, this year is to raise money to get this work out to the people who need it. All donations will go 100% to Hank to distribute the work.

Please go to commonsensefoundation.net to make a donation (charitable tax deduction) in helping me spread this book across the nation. Make a donation of \$100 or more and I will send you a personally signed copy from the author. Together we can stop [#hazing](#).
